

Brewery Wash

Non-Caustic CIP and General Purpose Cleaner

Properties

Brewery Wash is a buffered alkaline CIP and general purpose cleaner that is an effective alternative for caustic soda. Brewery Wash has been specially formulated to remove organic deposits commonly encountered in breweries. It is safe to use on a wide variety of surfaces including but not limited to: stainless steel, aluminum, copper, brass, zinc, plastic, and painted surfaces.

Applications

Brewery Wash was specifically developed for use in breweries but can also be used in other food and beverage plants.

Physical Properties

Form	Free flowing solid
Color	White
Scent	Odorless
Density	N/A
pH (1%)	11.5 ± 0.5

Directions for Use

Brewery Wash can be used for general cleaning on a wide range of surfaces and equipment including but not limited to: floors, kegs, vats, brew kettles, heat exchangers, and whirlpools. For these applications Brewery Wash should be used at concentrations from 0.75-3 oz. per gallon of water and can be used at temperatures ranging from ambient to 180°F. After cleaning, surfaces should be rinsed with potable water until free of alkalinity. If material compatibility is a concern, a resistance test should be performed on a small, inconspicuous area.

Packaging

This product is available in 40 lb. pails and 400 lb. drums. Larger pack-sizes available upon request.

Important: Read and understand label and Safety Data Sheet (SDS) for complete listing of hazards, precautions, first aid statements, and storage and handling information. SDS are available from the distributor of this product. 24-Hour Emergency Response Line 1-800-424-9300.
