

# FOAM CHLOR 50

## SELF-FOAMING ALKALINE CHLORINATED CLEANER

- Description:** FOAM CHLOR 50 is a premium foaming cleaning compound that is designed for use through mechanical or portable foaming devices. In addition, it is used as a spray cleaner, in soak and COP cleaning, and makes an excellent heavy duty cleaner for all types of cleaning in and around the food plant.
- Approvals:** FOAM CHLOR 50 is approved for use in food plants by the USDA, and uses only food-grade chemicals allowed by the FDA.
- Use Instructions:** Normally FOAM CHLOR 50 can be used at dilutions as low as 1 oz per gallon for spray cleaning, 2-4 oz per gallon for soak cleaning, and 3-5 oz per gallon for foam cleaning. Heavier cleaning requirements or more appreciable foam levels may dictate usage dilutions at levels different than those recommended here.
- Properties:**
- |             |                          |
|-------------|--------------------------|
| FORM:       | liquid                   |
| COLOR:      | clear, pale yellow       |
| DENSITY:    | 10 lbs/gal               |
| ALKALINITY: | >10%                     |
| pH (1%):    | 12+                      |
| PHOSPHORUS: | not more than 4% by wt.  |
| CHLORINE:   | 2 oz/gal equals 390 ppm. |
- Warnings:** Causes severe burns! Keep out of reach of children. Contains an appreciable amount of potassium hydroxide and sodium hypochlorite. Harmful or fatal if swallowed. Severe eye irritant. Protective clothing and eye protection must be worn when using this product.
- Authorizations:** FOAM CHLOR 50 is authorized by the U.S. Department of Agriculture for use in federally inspected poultry and meat product plants.
