**Perasan OG (ANTIMICROBIAL SOLUTION)**

**ACTIVE INGREDIENT:**
- Peroxyacetic Acid 21.5%
- Hydrogen Peroxide 5.0%
- Sodium Chlorite 7.0%
- Sodium Hydroxide 0.1%

**Containers greater than 5 gallons:**
- Do not reuse or refill container. Close container promptly after emptying. Offer for recycling, if available. Triple rinse before reusing or recycling.
- Container must be holes drilled or crushed,
- Container must be down to 10 liters after the first 10 minutes. Then offer for recycling if available or puncture and dispose of in a sanitary landfill, or by incineration. On containers not allowed by state and local authority.

**KEEP OUT OF REACH OF CHILDREN**

**FIRST AID**

- DRAIN INTO A SEWAGE SYSTEM.
- If swallowed, call a poison control center or doctor immediately for treatment advice.

**SYMPTOMS OF EXPOSURE:**
- Causes irreversible eye damage and skin burns. May be fatal if ingested.
- Probable mucosal damage may contraindicate the use of gastric lavage.

**DIRECTIONS FOR USE:**
- For use in the treatment of domestic and industrial effluents, as a general disinfectant, in laboratories, in the food industry, for the treatment of sewage and wastewater effluent systems associated with public and private wastewater treatment plans.
- Shock dose every 1 to 3 days for a period of at least 60 seconds or more if specified by a governing code. Drain thoroughly and allow to air dry.

**MICROBIAL CONTROL IN EFFLUENT TREATMENT SYSTEMS**

- For use in the treatment of domestic and industrial effluents, as a general disinfectant, in laboratories, in the food industry, for the treatment of sewage and wastewater effluent systems associated with public and private wastewater treatment plans.

**PULP AND PAPER WASHING PROCESS**

- Influent Water Systems:
  - 1.4 lbs (1.54 kg) of this product per 1000 gallons of raw or process water (2.0 ppm of active PAA). This dosage is equivalent to 8.0 lb. of peroxyacetic acid per ton (dry basis) of pulp.
  - 35 ppm peroxyacetic acid). Adjust dosage as required to maintain the required concentration.

**_THROUGH AND RECIRCULATING COOLING WATER**

- Industrial and heavy-duty cooling water systems:
  - 0.3 lbs to 1.4 lbs per 1000 gallons of water (0.5 to 2.5 ppm PAA).

**STORAGE AND DISPOSAL**

- Do not contaminate water, food, or any other material by using this product in inappropriate applications.

**PROHIBITED: Do not dispose of into any waters, septic tanks, or sewage systems.**

**CONTAINER DISPOSAL: Container must be holes drilled or crushed, or cut and disposed of in a sanitary landfill as Permeating the local sewage plant authority.

**PRODUCT USE LIMITATION:**

- This product is intended for use only as directed. It is dangerous to persons not accustomed to using the product for its intended purpose. When using this product, wear suitable protective clothing as directed.

**NOT FOR SALE:**

- Not for sale in California.
