

# DENATURANT RED

FD&C dye

## Properties

This product is a food grade red dye used to mark and denature meat and/or poultry that has been deemed adulterated in food processing plants.

## Applications

This product can be used to make markings that are required to prevent adulterated meat and/or poultry from being used for human consumption.

## Physical Properties

|                     |                          |
|---------------------|--------------------------|
| Color               | Red, clear               |
| Scent               | None                     |
| Density (20 °C)     | 1.00 g/mL (8.34 lbs/gal) |
| pH (1%)             | Neutral                  |
| Phosphorous content | 0%                       |
| Biodegradable       | 100%                     |

## Directions for Use

For industrial use only.

Prepare dye for use by diluting up to 15:1. This red denaturant must be deposited in all portions of the carcass or product to the extent necessary to prevent its use as human food.

## Packaging

This product is available in 4 x 1 gal (34 lb) cases and 5 gal (42 lb) pails. Larger sizes available on request.

**Important:** Read and understand label and Safety Data Sheet (SDS) for complete listing of hazards, precautions, first aid statements, and storage and handling information. SDS are available from the distributor of this product. 24-Hour Emergency Response Line 1-800-255-3924.
