ProMax

Water Line Cleaner & Descaler

A premium water line cleaner designed to remove scale and other architecture that supports the formation of biofilm in poultry & livestock drinking water systems

Cleaning instructions for poultry, swine and dairy drinker systems when not in use:

- Typical use rates are 0.5–4oz/gallon. 1oz/gallon (1:128) is recommended for routine slime and scale removal. If heavy cleaning is required 2-4 oz/gallon (1:64 - 1:32) solutions are recommended
- Inject into system using a common medicator
- Uncap the system at its furthest point and check for effervescence to ensure solution has complete coverage of the system
- Activate all drinker nipples or cups
- Circulate when possible. If circulation is not possible, hold the solution in the system for 12-24 hours
- When cleaning is complete, thoroughly flush entire system with potable water
- It is recommended to use an EPA registered animal drinking water sanitizer/disinfectant continuously when animals are present

Precautionary Statements:

Wash hands thoroughly after handling
Wear protective gloves/protective clothing/eye protection/face protection.
Keep only in original container.
Keep away from heat/sparks/open flames/hot surfaces - No smoking.
Keep/Store away from clothing/combustible materials.
Do not eat, drink or smoke when using this product.
Do not breathe dust/fume/gas/mist/vapors/spray.
Use only outdoors or in a well-ventilated area.
IF exposed or you feel unwell: Call a POISON CENTER or doctor/physician
Wash contaminated clothing before reuse.
Absorb spillage to prevent material damage.

KEEP OUT OF REACH OF CHILDREN

DANGER

Hazard Statements:

Causes severe skin burns and eye damage
May be corrosive to metals
May intensify fire; oxidizer
Harmful if swallowed
May be harmful in contact with skin

Environmental Hazards:

This product may be toxic to birds, fish and aquatic invertebrates. Caution should be used when applying indoors because pets may be at risk. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of the (NPDES) permit and the permitting authority has been notified in writing prior to discharge.

Storage and Disposal:

Storage: Keep product dry in tightly closed original container when not in use. Store in a cool, dry, well-ventilated area. Product should be stored at 50° F or above.

Disposal: Do not contaminate water, food, or feed by storage and/or disposal. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. DO NOT REUSE EMPTY CONTAINER. Triple rinse the container (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incinerate.
