

ET Solv

CONTAINS NON-PLANT FOOD INGREDIENTS

- 30.5%.....Hydrochloric Acid
- 8%.....Amine Based Soaps
- 1%.....Wetting Agents

Applications: For use in water systems to dissolve carbonate and oxide-based scales, in order to convert scale into stable, dissolved ions. Plants uptake the ionized nutrients in order to grow and proliferate. In addition to nutrient conversion, ET Solv also leads to the formation of carbon dioxide which aids in plant growth.

Use Rate: Introduce at 2-50-ppm as product (0.217-5.42 oz per 1000 gallons) with water maintaining the same pH values as the current treated water system is accustomed to. ADD SPARINGLY FOR GRADUAL RE-SOLUBILIZATION (reducing 0.1 pH unit ea. week).

Not for use as a Potable Water Additive - FOR OFFLINE USE ONLY – Upon completion of use on potable water systems, remove product and adequately flush the system until the water is in compliance with local, state and federal guidelines.

Reduce our carbon footprint:
Containers may be re-used for potable water when properly rinsed and disinfected.

KEEP OUT OF REACH OF CHILDREN DANGER

Causes severe skin burns and eye damage.
May be corrosive to metals.
Harmful in swallowed.
May cause respiratory irritation.

Do not breathe fumes. Wash hands thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection. Keep only in original container. Immediately call a POISON CENTER or doctor/physician. For specific treatment see Section 4 First Aid. Wash contaminated clothing before reuse. Absorb spillage to prevent material damage.

FIRST AID

IF EXPOSED: Call a Poison Center or doctor/physician.
IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.
IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing.
IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.

HANDLING & STORAGE

Store in a corrosive resistant container with a resistant inner liner. Store locked up. Dispose of contents/container in accordance with local regulations.

SPILLS

In case of a spill, contain, immediately neutralize with alkali.

DOT SHIPPING NAME AND CLASSIFICATION:

UN3265

Corrosive liquid, acidic, organic, n.o.s. (containing amines), 8, PG II
