

ENVIROTECH

There's an alternative
to stabilized bromine.

KEEP
CALM
AND
KEEP
YOUR
COOL

www.envirotech.com/product/bioside-hs-15

Keep it cool and
carry on with
BIOSIDE™ HS-15 %!
(A Drop-in Stabilized
Bromine Alternative)

BIOSIDE™ HS-15 %
is the only
single-feed
alternative
to stabilized
bromine for
cooling towers.

A versatile peracetic acid
(PAA) based microbicide,
BIOSIDE® HS 15% provides
effective microbiological
control for cooling water
systems.

- Cost comparable to stabilized bromine
- Guaranteed supply - No reliance on foreign raw materials
- Use your same piping equipment, feed system & shock-dosing routine
- Uses same analytical method (DPD total chlorine)
- Does not require activation

Contact us for expert
advice about our
BIOSIDE® HS 15% single-feed
oxidizing solution
that's guaranteed
to keep it cool.
