

PROPERTIES

ProMax[®] is a premium fast-acting water line cleaner that removes scale and other architecture that supports the formation of biofilm in poultry and livestock drinking water systems. The product is formulated to remove and prevent carbonate-based scale, metals, mineral deposits and slime formation. ProMax is a novel product that utilizes multiple modes-of-action to bind, remove, and prevent soil, scale, and slime buildup in poultry & livestock water lines.

APPLICATIONS

ProMax[®] is intended to be injected into poultry & livestock water lines between flocks or herds to effectively treat clogs formed by slime, crust, and hard water deposits. **ProMax**[®] can be used in various treatment programs to sustain water lines leading to decreased mortality, increased water consumption, and improved feed conversion.

PHYSICAL PROPERTIES

Color	Colorless, clear liquid
Scent	Odorless
Density (20 °C)	1.22 g/mL (10.16 lbs/gal)
pH (1%)	<2
Solubility in water	100%
Biodegradability	100%

DIRECTIONS FOR USE

Typical treatment rates are 1–2 oz per gallon water, but the product can be used between 0.5–4.0 oz per gallon depending on soil load and scale buildup. **ProMax**[®] can be used in water temperatures ranging from ambient to 120°F. For best effect, hold product in water lines for up to 12 hours and then flush to remove foreign material.

PACKAGING

This product is available 2.5, 5, and 55-gallon drums. Larger sizes available on request.
