

ENVIROTECH

an Arxada company

WE SOLVE WATER CHALLENGES TOGETHER!

Our wastewater technologies use environmentally friendly biocide chemistries that help ensure facilities like yours comply with environmental regulations. Our peracetic acid (PAA) products – **PERAGREEN® WW** and **PERAGREEN® 22WW** – efficiently destroy harmful bacteria without using chlorination, eliminating the need for neutralizing agents. These PAA products disinfect all different types of wastewater: primary, secondary, tertiary and bypass flows, also sanitary sewer overflows (SSOs) and combined sewer overflows (CSOs).

To dispense our **PERAGREEN®** PAA products, ETCS has developed three innovative feed skid systems, suitable for all kinds of wastewater facilities, that provide the highest standards in technology at the best price. These fully automated feed systems ensure a safe, reliable, and continuous peracetic acid application to your wastewater systems.

**WE SOLVE
WATER CHALLENGES
TOGETHER!**

**Compare
models**

	Economy Skid	Full-Scale Skid	Bulk Peracetic Acid Skid
Millions of Gallons per day (MGD)	0-3	3-50	50+
Feed Skid	Dual pump skid with ultrasonic flow control	Tri pump skid with ultrasonic flow control	Fully customizable chemical feed skid
Custom-sized Peristaltic LMI Pumps	2, with 316 stainless steel heads	3, with 316 stainless steel heads	4+, 2, with 316 stainless steel heads
Enclosure & Containment	Stainless steel enclosure, hinged lid, 2 gal spill containment	Stainless steel enclosure, hinged lid, 2 gal spill containment	Walkthrough enclosure with spill containment
Piping & Valving	Stainless steel	Stainless steel	Stainless steel
Chemical Storage	Single 55 gallon drum or 330 gallon tote	2-330 gallon chemical totes	Chemical bulk tanks
Alerts	None	Leak detection, and alarm	Leak detection, and alarm
Control and Automation	None	PLC, and SCADA ready	PLC, Industrial electric control panel, and SCADA ready
Pressure Relief	None	Advanced degassing system and overpressurization prevention	Advanced degassing system and overpressurization prevention

We can work together to solve your wastewater issues with cutting-edge solutions and innovative and affordable technology.
