

DESCRIPTION

Floor Guard is a highly unique floor treatment and cleaner that is designed to relieve concerns of cleanliness and cross contamination on floors in production rooms, cool rooms, freezers, cold storage areas, and anywhere there is foot or forklift traffic. The beads are air-dried and light density, and the weight of the shoe or tire will burst the bead, releasing the active ingredients and coating the tire or shoe. Floors may be wet or dry before addition of **Floor Guard**, depending on the conditions of its intended use. However, **Floor Guard** is completely water soluble and dissolvable, and leaves no particulate residue after rinsing.

APPROVALS

The active ingredients are a dual chain quaternary ammonia. The balance of **Floor Guard** ingredients are inert and classified Generally Recognized As Safe (GRAS status), in accordance with 21 CFR part 184. This product is 100% biodegradable.

USE INSTRUCTIONS:

For 'normal' or medium use applications broadcast the **Floor Guard** at the rate of 0.5-2 lbs per 100 sq ft. of floor. In high traffic areas, such as forklift lanes, broadcast **Floor Guard** either manually, or by using a hand-held mechanical spreader (which yields a more uniform application) at the rate of 2-3 lbs per 100 sq ft. of floor area. Reapply 1-3 times per week or as needed.

PROPERTIES

Form	White beads
Odor	Very faint
pH (10%)	9-10
Phosphorus	None
Actives	Quaternary mixture
Biodegradable	Yes

WARNINGS

Caution. Keep out of reach of children. Contains an appreciable amount of quaternary ammonia. Harmful if swallowed. Mild eye irritant.

SOURCE AND PACK

25lb pail and 300 lb drums.

Prod. #5440
